GGKP Partners launch scoping paper on green growth indicators

GGGI, OECD, UNEP and the World Bank have launched a joint report "Moving towards a Common Approach on Green Growth Indicators", under the auspices of the GGKP. The report was...

Moving Towards a Common Approach on Green Growth Indicators
GGGI, OECD, UNEP and World Bank

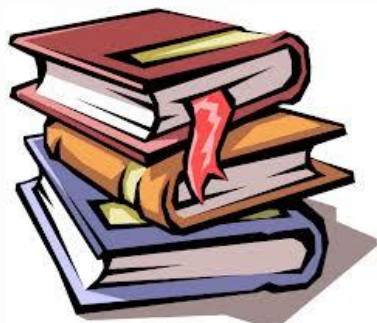

This report marks a major effort by its four authoring organizations to ramp up efforts to establish a common basis for measuring green growth progress. It outlines how strong international cooperation on testing, exploring, and refining measurement tools on green growth and green economy is essential for supporting practical implementation and assessing progress of policies in both developed and developing countries.
