

Financing (Sectorial) Circularity: Basic Principles of Extended Producer Responsibility

Presentation by Alexander Batteiger
GIZ / PREVENT Waste Alliance

PREVENT Waste Alliance

- International 'think and do tank' for circular economy practitioners
- 650+ members from the private sector, academia, civil society and public institutions
- Launched in 2019 by the German Federal Ministry for Economic Cooperation and Development (BMZ)
- Working groups on three material streams:
 - Plastics (incl. sub-topics such as EPR and Plastic Credits)
 - E-Waste and Batteries
 - Organic Waste
- Working groups on cross-cutting issues: Financing Circular Economy; Digitalisation and Circular Economy; Awareness Raising/Behaviour Change
- Pilot projects and innovation programmes

PREVENT - A Think and Do Tank

01

Knowledge sharing

We share our knowledge around the topic of circular economy.

02

Guidelines and standards

We contribute to shaping international guidelines and standards for circular economy solutions.

03

International partnerships

We connect different perspectives and act in international cross-sectoral partnerships.

04

Circular solutions

We incubate and pilot scalable circular economy solutions worldwide.

Together for a Circular Economy

The EPR set-up shapes roles

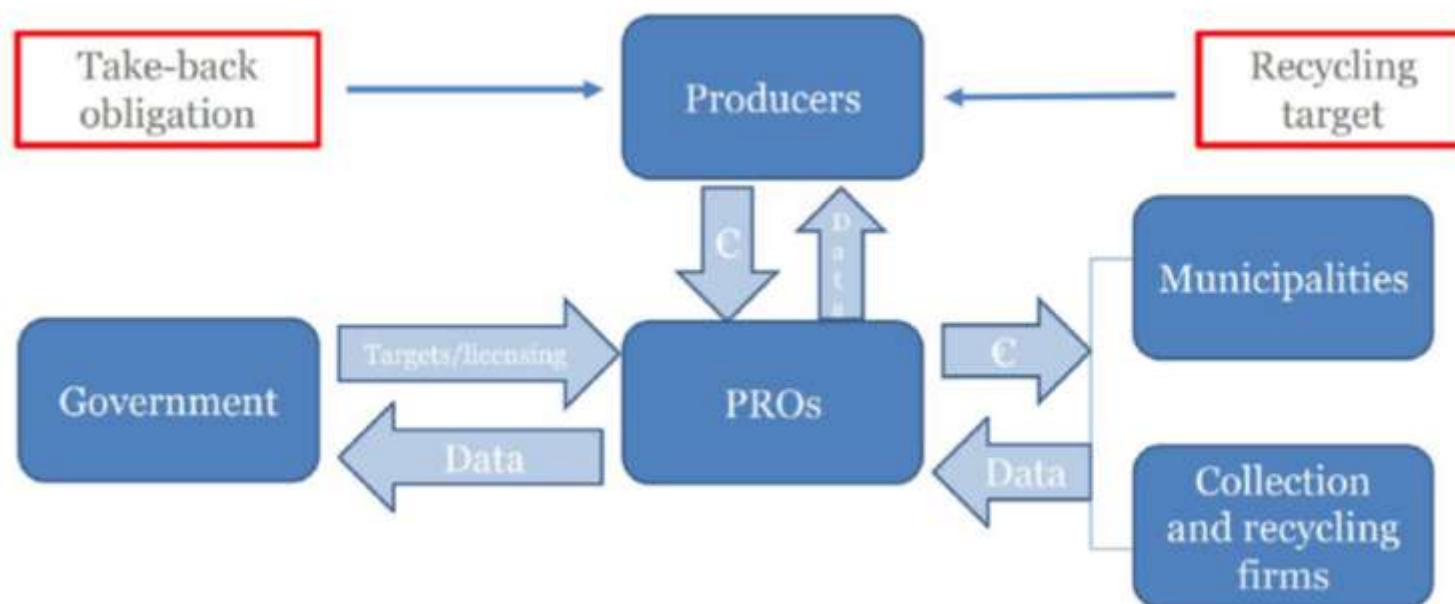

- EPR is a policy approach that makes producers responsible for their products along the lifecycle, including at the post-consumer stage.
- The set-up of an EPR system varies from country to country – impacting also the roles and responsibilities of different actors.
- **Mandatory EPR** shows better monitoring and enforcement, lower levels of free riding and a broader scope of covered wastes compared with voluntary schemes. Therefore, both producers and governments play a **critical role** for successful EPR implementation.
- Differentiation between **Financial EPR schemes** and **Operational EPR schemes**
- Differentiation between **Individual responsibility** and **Collective responsibility**

Roles and Responsibilities of Stakeholders I

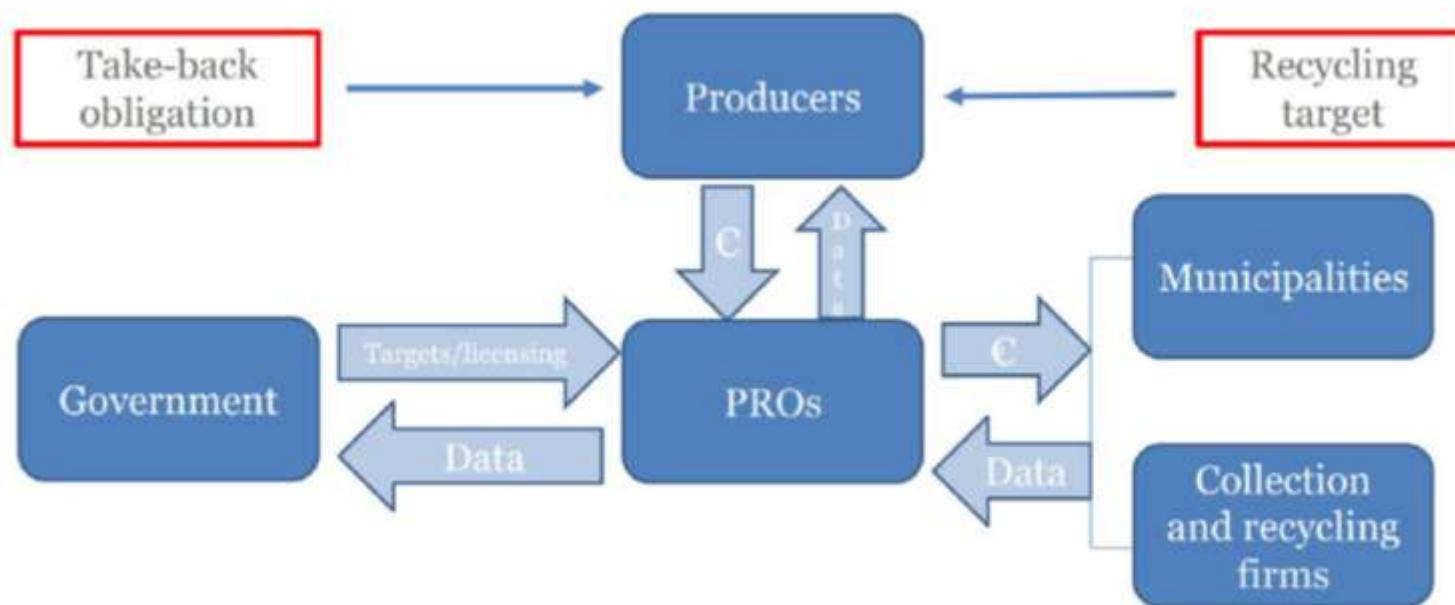

- Governments: Develop EPR policy incl. targets; law enforcement and monitoring of the EPR system
- Obliged companies (producers and importers): Ensure collection, sorting and recycling of their packaging waste; influence packaging design
- Producer Responsibility Organisation (PRO): Fulfil obligations of the obliged companies in a collective EPR system; operate the system

Source figure: OECD

Roles and Responsibilities of Stakeholders I

- Consumers: Reduce amount of packaging; correct disposal of packaging waste
- Waste management operators (including waste banks): Collect, sort and recycle packaging waste, involving the informal sector
- Municipalities: Link between consumers and waste management operators; potentially organise the collection

Source figure: OECD

Stakeholder interests and coordination

Typical interest structures:

Stakeholder group	Typical interests	Expectations towards the EPR system
Citizens & consumers	<ul style="list-style-type: none">Affordable product pricesNo increase of taxes and municipal feesA clean and healthy environment	<ul style="list-style-type: none">Clear communication on EPR-based financingTangible improvements
Municipalities	<ul style="list-style-type: none">Sound municipal services with reasonable efforts & costs	<ul style="list-style-type: none">EPR system must fit into municipal structures
Waste managers & recyclers	<ul style="list-style-type: none">More business & value addition	<ul style="list-style-type: none">Benefits from the EPR system
(Informal) collectors	<ul style="list-style-type: none">Stay in businessImprove situation	<ul style="list-style-type: none">Must have a role in an EPR structure
Producers	<ul style="list-style-type: none">Fair competition (no disadvantages compared to their competitors)Have a reliable action corridor (no back-and-forth in rules and policies)	<ul style="list-style-type: none">Mandatory for all producersClear rules & responsibilitiesEnforcement focus on free-riders

→ Stakeholder consultation and repeated organized exchange on EPR-related decisions is necessary

Know-how to enable
Extended Producer Responsibility

EPR Toolbox

Know-how to enable Extended Producer Responsibility for packaging

STRUCTURE

MODULE 1
GENERAL ASPECTS OF EPR
SCHEMES FOR PACKAGING

- Factsheet 00:** Preface, introduction, glossary and key readings
- Factsheet 01:** How can roles and responsibilities in packaging value chains be defined?
- Factsheet 02:** How can a PRO be established?
- Factsheet 03:** How can financial flows be managed, and fees and payments be set?
- Factsheet 04:** How can a register of obliged companies be established?
- Factsheet 05:** How can a regulatory framework be designed?

MODULE 2
COLLECTION AND SORTING
OF PACKAGING WASTE

- Factsheet 06:** How can the collection of packaging waste be organised?
- Factsheet 07:** How can sorting procedures for packaging waste be organised?
- Factsheet 08:** How can the informal sector get involved in the system?
- Factsheet 09:** How can citizens be incentivised to separate packaging waste at source?
- Factsheet 10:** How can deposit refund systems be set up?

MODULE 3
RECYCLING OF
PACKAGING WASTE

- Factsheet 11:** How can high-quality recycling be ensured?
- Factsheet 12:** How can the recyclability of packaging be increased?
- Factsheet 13:** How can the market demand for recycled plastics be increased?

COUNTRY
REPORTS

- Germany
- Chile
- South Africa
- Republic of Korea
- Tunisia

BACKGROUND

COMPLEMENTARY APPROACHES

FAQ

FREQUENTLY ASKED QUESTIONS

CONTENT

Central document: interactive PDF, including

- 14 factsheets on different aspects, for example roles and responsibilities, finance, informal sector, recyclability.
- Background document: *How can different approaches complement EPR schemes?*
- Country reports from 5 countries: Chile, Germany, Republic of Korea, South Africa, Tunisia
- FAQs
- Available in 10 languages, incl. English, Spanish, Arabic, Chinese

Training materials

- Exercises and role plays for each factsheet
- Presentations

Public materials available for download here:

Video series: interviews with 14 experts

The Global Action Partnership for EPR

Thinking ahead jointly – this is our mission.

As the Global Action Partnership for EPR, we connect practitioners and experts worldwide, foster collaboration, and innovate the global conversation on EPR.

- Launched in October 2023
- Working on three pillars:
 - **Library:** We strive for a common understanding of EPR
 - **Helpdesk:** We provide coordinated and tailored technical support
 - **Community:** We bring together an international EPR community
